Education

Jabalpur Engineering College

2021-2025

B.tech. in Computer Science and Engineering | **GPA: 7.7**

Relevant Courses: DBMS, Operating System, Data Structure and Algorithms, OOPs(C++), Computer Graphics and MultiMedia

Projects

Woo eCommerce

Developed a fully-functional eCommerce website

MERN Stack, Tailwind CSS, Rest APIs

- **Comprehensive User Authentication:**

Implemented a secure authentication system for users, ensuring a safe and personalized shopping experience.

- **Feature-Rich E-Commerce Capabilities:**

Developed functionalities such as user and admin dashboards, product reviews, and integrated payment gateways for streamlined transactions.

ChatRoom

Developed a real-time messaging application

React.js, Firebase, Chakra UI, Github, Git

- App offering seamless chat room creation, instant updates, and a visually appealing user interface.
- Ensured application security through well-configured Firebase security rules.

Spotify Clone

Developed a music streaming platform replica

MongoDB, Express.js, React.js, Node.js, Tailwind CSS

- Integrated user authentication and authorization for personalized user experiences.
- Enabled users to browse, search, and play music with features resembling the popular Spotify platform.

Experience

SYNC INTERN'S

Jul 2023 - Aug 2023

Reactjs Intern

MERN, Tailwind CSS, Git, GitHub

- Successfully implemented React components and features, gaining hands-on experience in building modern, efficient web applications.
- Integrated third-party APIs to enhance application functionality and deliver a seamless user experience.

Events & Achievement

Hactoberfest

Jun. 2023 - Sep. 2023

Contributor

Open-Source, Reactjs, Rest-APIs, Git, GitHub

- Made valuable contributions to various open source projects, submitting pull requests and addressing issues to enhance project functionality and codebase.
- Collaborated with developers worldwide demonstrating effective communication and teamwork skills.

GirlScript Summer of Code

May 2023 - Aug 2023

Contributor

Git, JavaScript, GitHub, HTML, CSS, MERN, Tailwind CSS

- Contributed to projects that had a meaningful impact, addressing real-world challenges and enhancing the functionality of open source software.
- Showcased expertise in a diverse technology stack

Skills

Languages:

Python, CSS, C++, SQL, HTML, JavaScript

Technologies & Tools:

MERN stack, Tailwind CSS, Git, GitHub, Chakra UI, Firebase
